Bulletin of Environmental Contamination and Toxicology

SUBJECT INDEX - VOLUME 71

Acetochlor
effect on nematode community 755
effect on soil microbes 746
metamidophos and copper toxicity to earthworm 1158
residue behavior in soil 919
Acid Rain
Cd and effects on *V. faba* 998
Aflatoxin
in peanuts, Nigeria 42
Air
hair nicotine in preschool children 1
heavy metals in joss stick smoke 135
lead and mothers' blood, India 1239
lead during gun range remediation 11
methane efflux from rice 212
perfluorooctane sulfonate 408
PAH during benzene incineration 675
PAH during motorcycle cold starts 856
PCBs and pesticides, Croatia 1034
PCBs in vapor and particles 1042
Stack height estimation 892
Allelopathy
E. crassipes on algae 1048
Aluminum
developmental toxicity in shrimp 481
AMPA
in sediment, Washington, USA 912
Apoptosis
heavy metal induced in fish cells 114
Arsenic
in Blackfoot disease area 798
in West Texas aquifers, USA 905
toxicity of geogenic arsenic 1100
Ascorbic Acid
effect on milk Pb and Cd in mastitis 899
Atrazine
adsorption by soils 655
biodegradation 924
degradation in compost soil 933
Benzene
PAH emission with incineration 675
Benzopyrene
DNA breaks in fish liver 263
Bioassay
bicarbonate and sulfate as leaching markers 1222

deltamethrin ELISA 14
exposure model 437
Bioassay
hydroxypyrene as PAH exposure marker 465
nutrient and salinity effect on algal assay 609
pH maintenance of pulp mill effluent 1053
pH and toxicity of nitrophenol 1069
tolerance for identification of contaminated sites 1139
toxicity assessment of gas plant 21
narcotic mixture toxicity prediction 345
trout avoidance of heavy metals 226
Biphenyl
bacterial degradation 768
Cadmium
accumulation in zebra mussel 90
acid rain and effects on *V. faba* 995
analysis with matrix modifiers 1213
ascorbic acid milk effect in mastitis 899
binding peptide in Acetabularia cells 98
Cd and Cu accumulation in tilapia, Turkey 1265
effect on root exudates of *T. aestivm* 698
effects on plant growth 323
exposure of Greek population 1108
extraction from soil with wheat 648
gastrointestinal changes in fish 561
genotypic responses in barley 1272
in edible mushrooms 123
in forest from wood ash 776
market basket survey, Pakistan 1260
metallothionein-like protein concentration 1084
soil remediation 682
subcellular distribution in clam 83
toxicity to larval *L. santolla* 527
uptake by plants 714
Zn and Cd uptake in wheat 1289
Carbaryl
effect on maternal behavior of jumping mouse 37
effect on snail reproduction 535
removal from fabrics 6
Carbofuran
estrous cycle interruption, mouse 422
Carbon Dioxide
Cu and response of crops 988
Chlorpyrifos
effect on invertebrate biomarkets 1131
endocrine endpoints in shrimp 497
Cholinesterase

bovine RBC ChE as standard 447
characterization from *D. magna* 219
Chlorobenzene
in snow crab 543
Chromium
developmental toxicity in shrimp 481
immobilization with debris 840
market basket survey, Pakistan 1260
resistant Pseudomonad strains 473
speciation in electroplating sludge 860
Clopyralid
improved analysis 414
Copper
accumulation of Cu and Cd in tilapia, Turkey 1265
characterization of copper sorbed to compost 848
developmental toxicity in shrimp 481
effect of methamidephos in soil 979
effect on soil microbes 746
in *Eucalyptus* leaves 617
market basket survey, Pakistan 1260
methamidophos and acetochlor toxicity to earthworm 1158
metallothionein and AChE in mussel and clam 489
removal with activated carbon 791
response of crops to elevated CO_2 and Cu 988
speciation in contaminated soil 804
toxicity of Cu-Zn mixtures to shrimp postlarvae 68
toxicity to mussels 1167
Cyanazine
biodegradation 924
Cyclodextrin
effect on methyl parathion toxicity 668
Cypermethrin
effect on freshwater crab 106
DDT
in mussels, Egypt 290
in rivers, Kenya 298
Deltamethrin
determination with ELISA 14
Dicamba
biodegradation 924
Dimethyl Phthalate
microbial degradation 810
Dimethoate
effect on snail reproduction 535
Dioxane
elution from landfills 641
DT-Diaphorase
kinetics and biochemical properties in *G. pulex* 520
EDTA

effect on soil heavy metals 706
Effluent
estrogenicity and population demographics 504
paper industry and invertebrate diversity 512
pH maintenance of during bioassay 1053
printing industry liver and testes effects 453
tannery effluent toxicity to fish 1200
urban wastewater and DNA damage in brown mussel 270
Endosulfan
estrogenic activity, mouse 458
Escherichia coli 0157:H7
identification with oligonucleotide arrays 826
Estrogen
carbofuran, mouse 422
endosulfan estrogenic activity, mouse 458
Exposure
aflatoxin in peanuts, Nigeria 42
air lead during gun range remediation 11
bovine RBC ChE as monitoring standard 447
fertilizer and heavy metals in vegetables 338
Greek population to Cd 1108
multigenicity of antineoplastic drugs 170
perfluorooctane sulfonate in air 408
protective clothing predictive models 437
removal of carbaryl from fabrics 6
semi volatile compounds in drinking water 1026
stack height estimation 892
thallium in air, Croatia 131
trihalomethane formation in swimming pool water 633
Fenvalerate
hematological response in fish 1192
toxicity to catfish 1207
Fipronil
endocrine endpoints in shrimp 497
Flavanoid
extraction from *G. biloba* 662
Gallium
growth retardation of carp 240
Glyphosate
in sediment, Washington, USA 912
Heavy Metal
accumulation in trees from sludge 330
Al, Cr, Cu developmental toxicity in shrimp 481
apoptosis induced in fish cells 114
Ar, Cd, Cr, Hg, Pb in fish and mussels, Italy 551
Cd analysis with matrix modifers 1213
Cd and Pb accumulation in zebra mussel 90
Cd and metallothionein-like protein concentration 1084
Cd and Zn interactions in wheat 1289

Heavy Metal (Cont'd)
Cd binding peptide in *Acetabularia* cells 98
Cd effects on plant growth 323
Cd effect on root exudates, *T. aestivm* 698
Cd gastrointestinal changes in fish 561
Cd genotypic responses in barley 1272
Cd in forest from wood ash 776
Cd, Pb, Zn toxicity to larval *L. santolla* 527
Cd soil remediation 682
Cd soil remediation with wheat 648
Cd subcellular distribution in clam 83
Cd toxicity moderation by zeolite 1184
Cd uptake by plants 714
Cr immobilization with debris 840
Cr resistant Pseudomonad strains 473
Cr speciation in electroplating sludge 860
Cu, Mn, Pb, Zn in *Eucalyptus* leaves 617
Cu removal with activated carbon 791
Cu speciation in contaminated soil 804
Cu speciation sorbed to compost 848
Cu toxicity to mussels 1167
EDTA and soil solution metal concentration 706
fractionation by particle size in sediments 873
gallium and growth retardation of carp 240
Hg in green-lipped mussel, Malaysia 570
Hg percutaneous adsorption 1091
in clams, Tunisia 961
in coral reef, Red Sea 577
in joss stick smoke 135
in mine tailings, Mexico 387
in sediment after draining marshes, Iraq 60
in sediments, Louisana 308
in surface sediments of agricultural basin 52
in tree sparrows, Beijing, P.R. China 142
interaction with fertilizers and vegetables 338
market basket survey, Pakistan 1260
Mn testes changes in rat 1151
Ni in San Francisco Bay, California, USA 46
Ni toxicity to submerged plant 1175
Pb effect on DT-Diaphorase, *G. pulex* 520
Pb in air and mothers' blood, India 1239
Pb remediation with morning glory 379
Pb speciation in Al_2O_3 833
pesticides in the Dead Sea 1230
pH-dependent toxicity to sludgeworm 283
resistance in *Pseudomonas* spp. 1145
sulfur dioxide and soybean yield 1005
thermal treatment of fly ash 819
Heavy Metal (Cont'd)

trout avoidance 226
uptake in to abalone shell 75
Zn effect on biochemistry of aquatic plant 255
Zn inhibition of *D. magna* cholinesterase 219
Herbicide
acetochlor behavior in soil 919
atrazine adsorption by soils 655
atrazine mineralization in compost soil 933
biodegradation of atrazine, cyanazine, and dicamba 924
dissipation and offsite movement 354
glyphosate and AMPA in sediment, Washington, USA 912
sulfonylurea toxicity to alae 585
toxicity of 21 herbicides to alae 594
2,4-D degradation by electron beam 176
Human
antineoplastic drug mutagenicity 170
Cd exposure of Greek Population 1108
hair nicotine in preschool children 1
organochlorine pesticides in milk, Indonesia 148
organochlorine in abdominal and breast fat 156
PCBs in breast cancer patients 887
perfluorooctane sulfonate body burden, Japan 31
perfluorooctane sulfonate body burden 408
protective clothing exposure models 437
toxicity of geogenic arsenic 1100
Humic Acid
ox-LDL receptor expression induction 429
Hydroxypyrene
as PAH exposure marker in fish 465
Iron
toxicity of Fe-Mn mixtures to shrimp postlarvae 68
Lead
accumulation in zebra mussel 90
ascorbic acid milk effect in mastitis 899
effect on DT-Diaphorase in *G. pulex* 520
in ambient air and mothers' blood, India 1239
in edible mushrooms 123
in *Eucalyptus* leaves 617
market basket survey, Pakistan 1260
remediation with morning glory 379
speciation in Al_2O_3 833
toxicity to larval *L. santolla* 527
Lindane
accumulation in zebra mussel 90
white blood cell count of catfish 248
Malathion
metallothionein and AChE in mussel and clam 489
Manganese
in *Eucalyptus* leaves 617

testes changes in rat 1151
toxicity of Fe-Mn mixtures to shrimp post larvae 68
Mercury
in edible mushrooms 123
in green-lipped mussel, Malaysia 570
percutaneous adsorption 1091
Metamidophos
acetochlor and copper toxicity to earthworm 1158
Methane
efflux from rice 212
Methamidophos
effect on copper in soil 979
effect on soil microbes 746
Methyl Ketone
in wild tomato leaves 400
Methyl Parathion
cyclodextrin effect on toxicity 668
Narcotic
QSAR for mixture toxicity 1116
toxicity prediction for mixtures 345
Nickel
in San Francisco Bay, California, USA 46
market basket survey, Pakistan 1260
toxicity to submerged plant 1175
Nicotine
hair levels in preschool children 1
Nitrate
in West Texas aquifers, USA 905
microbiological removal 362
remediation with extracts 196
Nitrophenol
pH and toxicity 1069
Nitrous Oxide
emission and urease in wheat 1282
Oil
effect on fish antioxidant defense system 234
Organochlorine
comparison of human abdominal and breast fat 156
pesticides in bird of prey eggs, Russia 163
pesticides in sediments, Mexico 1244
in human milk, Indonesia 148
pesticides in ambient air, Croatia 1034
pesticides in mussels, Egypt 290
pesticides in rivers, Kenya 298
removal with wheat bran 375
PAH
biodegradation in sludge 625
emissions during motorcycle cold-starts 856
hydroxypyrene as fish exposure marker 465

in coral reef skeleton, Egypt 1252
in fish and mussels, Italy 551
pollution in topsoil, Tianjin, P.R. China 189
sodium hydroxide and calcium nitrate effect on emissions 675
sources, central Korea 182
PCB
electric charge distribution and dechlorination 971
in ambient air, Canada 1034
in fish liver, Mediterranean Sea 276
in mussels, Egypt 290
in vapor and particles 1042
residues in breast cancer patients 887
Perfluorooctane Sulfonate
in drinking water, Japan 31
Phenol
QSAR for toxicity prediction 1124
Phthalate
dibutyl phthalate toxicity to alga 602
residues in greenhouse soil, P.R. China 394
Phthalic Acid
microbial degradation 810
Phosphorus
in drainage water 952
less from animal slurries 942
QSAR
for phenol toxicity prediction 1124
for toxicity of narcotic mixtures 1116
Remediation
ammonia and nitrate with extracts 196
bacteria degradation of biphenyl 768
Cd contaminated soils 682
Cd with wheat 648
copper toxicity moderation by zeolite 1184
gun range 11
integrated treatment of reservoir water 204
lead with morning glory 379
modeling for land and groundwater 729
nitrate microbiological removal 362
PAH emissions and benzene incineration 675
toxicity assessment of gas plant 21
wheat bran for organochlorine compounds 375
Sediment
heavy metal fractionation by particle size 873
organochlorine pesticides, Mexico 1244
Sediment (cont'd)
toxicity from mine spill 1061
Sewage
irrigation and growth of crop plants 1011
pesticides and potato quality in sludge 315

Sludge
heavy metal accumulation by trees 330
Sulfonylurea
toxicity to alga 585
heavy metals and soybean yield 1005
Tebufenozide
effect on invertebrate biomarkets 1131
Thallium
in air, Croatia 131
Thiophanate-Methyl
reproduction and survival of rotifer 722
Thiran
phytotoxic effects of antifouling compounds 881
Trichlorobenzene
chromosomal observation in *V. faba* 689
Trihalomethane
formation in swimming pool water 633
2,4-D
degradation by electron beam 176
Urease
Nitrous oxide emission in wheat 1282
Water
As-humic substances in groundwater 798
benzopyrene and fish DNA breaks 263
bicarbonate and sulfate as leaching markers 1222
chlorobenzene in snow crabs 543
cypermethrin effect on freshwater crab 106
dioxane elution from wasteful sites 641
E. crassipes allelopathic effects on algae 1048
effluent estrogenicity and population demographics 504
fenvalerate hematological response in fish 1192
fenvalerate toxicity to fish 1207
fipronil and chlorpyrifos and endocrine endpoints in shrimp 497
heavy metals in clams, Tunisia 961
heavy metals in coral reef, Red Sea 577
heavy metals in mine tailings, Mexico 387
heavy metals in sediments, Louisiana 308
heavy metal uptake into abalone shell 75
humic acid ox-LDL receptor expression induction 429
integrated treatment of reservoir water 204
lindane and white blood cell count of catfish 248
nitrate and arsenic in West Texas, USA 905
nitrate microbiological removal 362
Water (cont'd)
nitrogen discharge from aquaculture ponds 866
nutrient and salinity effect on algal assay 609
nutrient loss from agricultural catchment 761
oil effect on fish antioxidant defense system 234

OP pesticides in rivers, Kenya 298
PAH degradation in sludge 625
PAH in coral reef skeleton 1252
PAH sources, Central Korea 182
paper effluent and invertebrate diversity 512
PCB dechlorination 971
PCB in fish liver, Mediterranean Sea 276
perfluoroctane sulfonate in drinking water, Japan 31
pesticides and heavy metals in Dead Sea 1230
pH dependent toxicity of heavy metals 283
phosphorus in drainage water 952
phosphorus losses from animal slurries 942
phthalate toxicity to alga 602
phytotoxic effects of antifouling compounds 881
remediation of ammonia and nitrate with extracts 196
remediation modeling for groundwater 729
sediment extract toxicity 782
sediment quality after draining marshes, Iraq 60
semi volatile compounds in drinking water 1026
sewage irrigation and growth of crop plants 1011
solute transport in heterogeneous soils 737
sulfonylurea toxicity to alga 585
surface sediment heavy metals in agricultural basin 52
tannery effluent toxicity to fish 1200
temperature and zinc accumulation 1077
toxic effects of printing effluent, rat 453
toxicity of 21 herbicides to alga 594
toxicity of mine spill sediment 1061
trout avoidance of heavy metal 26
urban wastewater and mussel DNA damage 270
Zinc
biochemical responses of aquatic plant 255
in *Eucalyptus* leaves 617
inhibition of *D. magna* ChE 219
market basket survey, Pakistan 1260
temperature and accumulation 1077
toxicity of Cu-Zn mixtures to shrimp postlarvae 68
toxicity to larval *L. santolla* 527
Zn and Cd uptake in wheat 1289
Zinc Phosphmide
analysis in baits, water, soil and specimens 1019
Ziram
Phytotoxic effects of antifouling compounds 881
